

Driver Recruitment Portal & Mobile App

Interview Assignment Submission — Comprehensive Project Documentation

Candidate: K S Indra Kumar
Live Web App: [driver-hub-xi.vercel.app](#)
GitHub Repository: [github.com/indra9346/DriverHub](#)
Mobile Framework: React Native / Expo
(`android-mvp`)

1. ASSIGNMENT SCOPE & TECHNOLOGY CHOICES

Driver Hub is a specialized recruitment platform designed to connect commercial drivers with fleet operators and logistics companies. Both a **Production Web Application** and a **Native Android Mobile Application** have been engineered with a shared Supabase PostgreSQL cloud backend.

- ✓ Web App (React 18 + TS + Tailwind)
- ✓ Android App (Expo / React Native)
- Supabase Cloud PostgreSQL
- Real-time WebSocket Sync
- Role-Based Access Control (RBAC)
- AI Driver Support Assistant

2. ASSIGNMENT REQUIREMENT CHECKLIST & FEATURE MAPPING

 **For Drivers / Candidates**

✓ **Registration & Login:**

Role-specific signup with phone, category, and license details.

✓ **Create & Manage Profile:**

Dynamic bio, expected salary, availability, and badge type.

✓ **Experience & Skills:**

Heavy transport, trailer handling, GPS navigation tags.

✓ **Document Uploads:**

Driving license, badge certificate, and resume attachment.

✓ **Search & Filter Jobs:**

Filter by vehicle category (HMV, LMV, Bus), city, and salary.

✓ **Apply & Track Applications:**

5-stage progress bar (Applied → Review → Shortlist → Trial → Hired).

✓ **Notifications:**

Real-time alerts for interview schedules and shortlists.

 **For Employers & Fleets**

✓ **Employer Registration & Login:**

Company profile with GST/depot details.

✓ **Company Profile Management:**

Fleet size, operating corridors, and website.

✓ **Post Job Vacancies:**

Category, experience years, salary bracket, shift hours, required docs.

✓ **Application Pipeline:**

Candidate reviews with resume previews.

✓ **Search Driver Profiles:**

Search verified candidates by badge & location.

✓ **Shortlist & Contact:**

1-click status updates, interview date scheduler, phone/email contact.

 **Admin Moderation Panel**

✓ **Manage Candidates & Employers:**

Central user directory with status filters.

✓ **Job Post Moderation:**

Review pending vacancies; approve or reject listings.

✓ **Manage Applications:**

Platform-wide application audit trail.

✓ **Live Dashboard Statistics:**

Total drivers, active jobs, applications, and placement rate.

✓ **User Governance:**

1-click ban/suspend or reactivate users with instant session blocking.

 **Multi-Platform Architecture**

✓ **1. Web Application:**

High-performance responsive SPA deployed live on Vercel.

✓ **2. Android Mobile Application:**

Standalone React Native android-Expo project in .mvp/

✓ **Mobile Bottom Navigation:**

1-tap thumb navigation for rapid on-the-go driver access.

✓ **Offline-First & Auto-Sync:**

Cloud persistence via Supabase PostgreSQL.

3. SUPABASE DATABASE SCHEMA DESIGN

Table Name	Columns & Relations	Purpose & Capabilities
public.profiles	id (UUID PK), role, full_name, email, phone, city, state, status, created_at	Unified user identity for drivers, employers, and superadmins with real-time status syncing.
public.driver_profiles	id, user_id (FK), driver_category, license_number, license_type, years_experience, skills, expected_salary	Commercial credentials, verified experience, license type, and equipment competencies.
public.companies	id, user_id (FK), company_name, industry, location, verified, status	Fleet operator records, trust badges, operating locations, and company descriptions.
public.jobs	id, employer_id (FK), company_id (FK), title, category, salary_min, salary_max, vacancies, status	Commercial vacancies with salary scales, shift types, and moderation approval flags.
public.applications	id, job_id (FK), driver_id (FK), cover_message, status, applied_date, interview_date	Full applicant tracking lifecycle linking drivers to jobs with interview schedules.

4. DEMO CREDENTIALS & TESTING MATRIX

Evaluators can use the credentials below to test each portal, or register any new email directly:

Role / Portal	Email Address	Password	Portal Route
 Super Administrator	admin@driverhub.in	123456	/admin/dashboard
 Freight Employer (Bharat Logistics)	deepa@bharatlogistics.in	123456	/employer/dashboard
 Mobility Employer (QuickRide)	arjun@quickride.in	123456	/employer/dashboard
 Commercial Driver (Ravi Kumar)	ravi.kumar@driverhub.in	123456	/driver/dashboard
 Verified Live Driver	indra1@gmail.com	123456	/driver/dashboard

5. HOW TO RUN & VERIFY BOTH PLATFORMS

 1. Web Application Live URL: driver-hub-xi.vercel.app Local Dev: <code>npm install && npm run dev</code>	 2. Android Mobile App Directory: /android-mvp Run on Android / Expo Go: <code>cd android-mvp && npm i && npx expo start</code>
